CHICAGO, June 16.—[By the Associated Press.] The Democratic National

Convention, it is expected, will get to actual work in shorter time than was the case at Minneapolis. Word was received this afternoon that the threat-ened Louisiana contest has been ami-cably arranged. Over the New York delegation considerable fuss is expected, but interviews with those on the ground show that they believe in up-holding the regular convention, and that while the anti-snap convention people will secure a respectful bearing they will be unable to get seats as dele

they will be unable to get seats as delegates.

L. M. Martin, one of the Boles men, said today that he never placed the strength of Boles below sixty, and it might go to eighty. South Dakota is expected to poll a good number of votes for him. Throughout the West votes are looked for and in the South Atlantic States a little support is expected. Shaver of Des Moines said today regarding Boles's reported strength in the silver States, that Boles would get the silver States, not because he is in accord with the radical ideas which prevail there on the silver quesigner. which prevail there on the silver ques-tion, but because he is a Western man. would get the silver States, not because he is in accord with the radical ideas which prevail there on the silver question, but because he is a Western man.

BRICE IN NO BURBY.

Senator Calvin S. Brice, chairman of the National Committee, arrived this afternoon and consulted with Secretary Schwerin, Sergeant-at-arms Bright and members of the National Committee on the ground. Brice was unable to say whether the temperature will be supported by the anti-Cleveland leaders now in the city and represents their careful and deliberate opinion in the matter.

THE CLEVELAND SIDE. the National Committee, arrived this afternoon and consulted with Secretary Schwerin, Sergeant-at-arms Bright and members of the National Committee on the ground. Brice was unable to say who the temporary chairman will be. He said the National Committee will probably make up the temporary roll-call at the first formal meeting and wherever intricate cases are encoutered they will be referred to a sub-commit-tee. Brice said, regarding the Ohio con-vention, that it is his opinion that no instructions were given, but the del-egation will come to Chicago, look over the situation, compil together and then the situation, consult together and then act together. It would not be right to say that the delegation is anti-Cleveland nor yet for Cleveland. Their choice is a matter on which the delegation are the choice is a matter on which the delegation are the choice is a matter of the gates reserved judgment until they have talked over the question fully here. Brice approved and indorsed the action of the Ohio convention. He said re-garding his position as a dark horse: "Oh, I'm not in it this year. "I'm not in a hurry."

in a hurry."

The committee examining the wigwam reported this afternoon. After a detailed examination and inspection of several hours the committee pronounced the building to be safe in every particular.

col. J. G. Prather, National Com-

In the Iowa headquarters this afternoon it was openly predicted that quite half of the Missouri delegation would come to Boies if Cleveland did not get the nomination on the first three ballots. Some Indiana politicans are on the ground, although the delegation is not due till Saturday. Ben Willetts, of Warrick county, said the Indiana delegation would cast its vote for Cleveland, although some of them hoped to work Gray into a position which might come to something if there is to be scramble for a favorite son. "If Gray stands a chance," hesaid, "Indiana will support him. Ledison Cleweland will support him. I believe Cleveland will

win on the first ballot."

Henry Watterson of Louisville was among the arrivals today. Hon. William English of Indiana says he thinks Cleveland splits nearly even on the delegation from that State. This delegation will meet Saturday to decide whether to present Gray's name. The Illinois delegation will also meet Saturday to decide whether or not to present Palmer's name. On its decision will depend the presentation of the win on the first ballot.' sent Palmer's name. On its decision will depend the presentation of the names of favorite sons. If Illinois presents Palmer, Indiana will present Gray. Iowa will, of course, present Boies, and then there are Cieveland and Hill, and possibly Carlisle and Gorman. Hill headquarters were opened here today and his literary bureau put in operation.

Hon. J. G. Albright, one of the Demo-cratic leaders of New Mexico, arrived in the city today, and immediately joined the Cleveland following. New Mexico will ask the convention to adopt a plank favoring the early admission of that Territory as a State.

THE UTAH CONTEST. The Utah contest, which will be heard in the coming convention, is almost an exact duplicate of the fight from the same Territory at the Minneapolis conexact duplicate of the fight from the same Territory at the Minneapoils convention, and proceeds from the same cause—the late break-up of the Liberal, or Gentile party, following the surrender of the People's, or Mormon party. P. L. Williams of Salt Lake City, who is here with the sitting members talked about the situation this evening, and said the fact is that the contestants are not Democrats at all. Henderson and Caine, he said, represent the real party. The other gentlemen, he asserted, represent only a small Liberal following. Mr. Atwood of Ogden, on the other hand, declares that the convention will have to uphold the Ferry delegation. There seems no serious difference among any of the contestants on any question but entry into the convention and recognition by the party. The preference of each seems to be Cleveland. Utah will favor a silver plank similar to that passed by the Wisconsin State convention, arongly indorsing bimetallism and establishing a

the New York delegates-at-large and for the past six years chairman of the Democratic State Committee, in a statement to the Associated Press, said: "The Democrats of the country at large who favor Cleveland believe that the Democrats of New York are obstinate and willful in opposing their wishes to those of the great majority, and they regard the action of the New York delegation in Insisting that they shall have their choice, notwithstanding the majority against them, as unreasonable. They do not know that the Democracy of New York would not be for Cleveland if Hill were not a candidate. They do not understand that the opposition to Cleveland is based upon an idea, a sentiment, which has become as fixed and absolute as a principle. The idea is dislike of a magwump. It matters not whether he be a Republican mugwump, like some of the editors of New York, or a Democratic mugwump, like exlike some of the editors of New York, or a Democratic mugwump, like exscoretary Fairchild or ex-Mayor Grace. Democrats dislike them all and all their followers, aiders and abetters." Murphy added: "The nomination of Cleveland would mean the destruction of the regular organizations in the great Democratic cities of the State and in the State itself, under which organization the party has successively won victories by increasing majorities for the last seven years. The Democracy of the State of New York cannot be made to believe that the nomination and election of Cleveland would not be to put in power the mugwumps or 'conditional Description of Cleveland would not be to put in power the mugwumps or 'conditional power the mugwumps or 'conditional Democrats' over those who contributed to the success, and our people look upon the contemplated action of the Democracy in some of the other States as intending a reward of a would be Democratical Contributions of the Contribution cratic mugwump assassin. The Democracy of New York is inspired by something besides loyalty and friendship for Gov. Hill. They are fighting for the life of the party. Cleveland by acquiescence at least in the action of the mugwump convention proves that he is wump convention proves that he is willing to go before the country as a

THE CLEVELAND SIDE. Ex-Secretary of the Treasury Fair-child, the head of the Cleveland delegachild, the head of the Cleveland delega-tion, has also prepared a lengthy state-ment, in course of which he says: "The delegates appointed at the Syracuse convention desire to look the ground over before determining in detail what they will do." He said no fair-minded man well informed as to the sentiment of New York, can doubt that Cleveland is, by many thousand votes, the strong-est candidate for that State, as well as with the masses of the party throughwith the masses of the party through-out the entire country. Every one might be sure that the Syracuse delegates, after careful consideration of the situation, would do that which would be for the best interests of the Democratic party as a whole. They were not here for the purpose of stir

ring up strife.

Chairman Taggart of the Indiana
State Central Committee says that it
has been decided that the name of Ex-Gov. Gray shall be presented to the convention as a Presidential candidate. His name is to be presented by Senator

Hon. Edward Curtis of California said this evening that the California delegation will vote unanimously for Cleveland. He added that the six delegates from Idaho, though they are strongly for silver, would rather trust to Cleveland on that question than any one else.

KANSAS PEOPLE PARTY.

The Platform Indorses Woman Suffrage— The Fusion Question. Associated Press.] After nominating L. D. Welling for Governor early this morning the People's party convention chose W. D. Vincent for Lieutenant-Governor by acclamation. Vincent de clined to run, and no attempt was made to nominate another candidate.

The St. Louis platform was indorsed, with the following, among other, addi-

The sentiment in favor of Democratic recognition is steadily gaining ground. Welling, the nominee for governor, is trying to bring about an indorsement by the Democrats.

After recess, Percy Daniels of Craw-ford county was nominated for Con-gressman-at-large. He is a civil engi-neer and farmer. Capt. R. S. Osborne of Rooks county was nominated for Secretary of State. Mrs. Lease's para-graph indorsing woman suffrage was in-corporated in the platform, which was then adopted as a whole.

A big contest is expected from Utah between the Straight and Tuscarora Democrats which will create similar interest to the contest from Utah at Minmeapolis. Two trains of five sleepers each, bearing the delegations, left this evening for the Chicago wigwam.

Indiana Democrats on the Way.

INDIANAPOLIS, June 16 .- The exodus of Indiana Democrats to Chicago has begun. Editor Morse of the Sentinel begun. Editor Morse of the Sentinel and delegate-at-large, who will lead the Indiana Cleveland forces, left last night. Among those who left today were Thomas Taggart, chairman of the State Central Committee; Hon. J. R. Wilson and Max Niblack, ex-Speaker of the House. There are a number of anti-Cleveland men here. It is believed a secret conference will be held tonight. It was learned this morning that Voorhees and ex-Gov. Gray held a long prihees and ex-Gov. Grav held a long private conference vesterday. The result was not made public, but it is believed Voorhees will present Gray's name for the Presidential nomination.

Resolutions were adopted indorsing the St. Louis platform; declaring against fusion and for the nomination of a United States Señator by the State convention. Resolutions favoring universal suffrage and prohibition were introduced, but ruled out of order. An appeal by the president of the convention for the necessary funds was generally responded to, and a sufficient sum was raised and pledged to put the State Central Committee in good fighting trim.

The Hegira from Washington.
Washington, June 16.—There was a

and rain, which in some sections developed into a veritable cyclone, laid

waste the southern central portion of the State late yesterday afternoon and it will be some days before the full extent of the disaster is known. That there has been loss of life is beyond question, but time alone can tell how many lives were lost. Jackson, Martin, Faribault, Freeborn and Blue Earth counties were the scene of the storm, although it was very general all over the State at the time of the disaster.

A cyclone began to form near Jack-

son and after sweeping across Martin and Faribault counties, scattered near Wells, and took a northeasterly course. Suddenly it swept to the south and disappeared below Wells. The loss of life will be very large, some estimates running as high as 100, although that is an extreme figure. It seems more proba-ble that forty or fifty lives were deble that forty or fifty lives were destroyed, but the exact number cannot be given tonight. Everything in the path of the storm was swept from the earth, houses and barns being splintered, trees and telegraph poles snapped off like pipestems and débris strewn along the railroad tracks so that where traffic is not interfered with by washouts, it is blocked by wrecked buildings and trees.

The engineer of a freight train which left Mankato last night discovered a house on the track, a flash of lightning revealing its presence just in time to avoid a wreck. An examination of the surroundings revealed half a dozen peo-

Along the Milwaukee road fron Jackson to Minnesota Lake the scene is one of great devastation. Wrecks of houses, barns and torn up forests line the road, and united families yesterday are today mourning, not only over the death or injury of loved ones, but also for the loss of crops.

THE FUNNEL-SHAPED TORNADO. MANKATO (Minn.,) June 16 .- One of MANNATO (Minn.,) June 16.—One of the worst disasters that ever visited Southern Minnesova occurred late yesterday afternoon. A funnel-shaped fornado swept over the land and laid waste scores of happy homes and sent forty or fifty souls into eternity. The extent to which the country was devastated is greater than was ever before known in the history of the State. Starting near Jackson, on the Southern Minnesota road, the cyclone swept Starting near Jackson, on the Southern Minnesota road, the cyclone swept eastward four miles south of Minnesota Lake, then took a broad circle to the south, passed south of Wells, two miles north of Sherburne, and struck a district schoolhouse, in which were a teacher and seventeen scholars. The building was demolished. Three children were killed and thirteen seriously injured.

At Easton three building were destroyed and several persons were injured. At Linden many houses were torn from their foundations. A family consisting of a man, his wife and child

The storm passed on eastward, destroying farmhouses and barns and everything in its path. Four miles south of Minnesota Lake five farm-Four miles houses were utterly demolished and four persons were killed. The body of one, John Brown, was taken from Minnesota Lake this morning. His wife, a hired man and a school teacher were injured.

The air at the time was stifling. It seemed like gas. Everything was filled with haze. It is impossible to get a list of the killed and wounded. Probably not less than 100 were injured. Mostly in the country, distant from medical in the country, distant from medica

All along the Milwaukee road from Jackson to Minnesota Lake the scene is one of devastation. Not every house one of devastation. Not every house was taken, but so many were destroyed that the scene is pitiful. It is one of the richest sections of the State. The wires are all down. Telegraph poles and trees everywhere were blown over. Trains on all other roads are greatly delayed.

At Spactal every was washed out, and train service was suspended.

At Sparta one end of the tunnel on the Northwestern caved in. Five houses were washed away. Numerous weshouts are reported on roads at various points. Highway and railway bridges were washed away at Prairie travaled east destroying eight houses.

> and barns. John Yonkers, whose place is near Fairmont, Martin county, lost two children and had many horses and two children and had many horses and cattle killed. The damage to property and destruction of life in Martin county is thought to be even greater than was at first stated. At Hartiand five people, including Hansen, were killed and many others injured. One mile east of Wells three people were killed. The storm demolished a house in which were Mrs. Nagle and child. The child was carried some distance in a baby carriage without injury. Mrs. Nagle landed in a tree, also without injury,

carriage without injury. Mrs. Nagle landed in a tree, also without injury. The storm passed on, destroying five houses en route and was next heard of from Wells. When the cyclone split, after striking the Nagle house, one portion went south, while the other passed four miles south of Minnesota Lake, destroying everything in its path. Not a building was left standing and a great many people are reported killed. At Minnesota Lake John Brown's daughter was also killed, but his wife was only seriously injured.

The worst damage was in Faribault county, but the other counties named suffered only a little less. The terri-tory so badly wiecked yesterday was today covered by water and mid. Hundreds of people searched for the rem-nants of homes, and, in some cases, missing friends. At one place the cy-clone destroyed eight houses in succes-sion and in another case a house was so completely destroyed that not a trace of either house or occupants remained. Many people are suffering from injuries and their sufferings are more intense through exposure to the cold wind and

rain.

Probably the worst damage in the State outside the actual cyclone district was at Spring Valley, where heavy rains caused bad floods, the whole town being in indated. Houses, bridges, sidewalks and everything near the riyer were washed away. Considerable stock was also drowned. The damage is estimated at upward of \$50,000.

LIGHTNING'S WORK. The Grant Monument at Chleago Struck

Three Persons Killed.

Chicago, June 16.—[By the Associated Press.] Three persons were killed, two seriously injured and some forty stunned by a flash of lightning which struck the Grant monument in Lincoln Problems of the killed are Lorie. Park tonight. The killed are Lewis Meyer, Mrs. Shelby, and an unknown

man. The injured are Harry Phillips and Mrs. Mattie Cison. The catastrophe was the result of a severe electrical storm, during which ople who congregated in the park took refuge in the vaults under the mon-ument. The storm began with a light shower, which rapidly developed into a small hurricane, accompanied by a downpour of rain, vivid flashes of lightning and terrific peals of thunder. When the, storm was at its height a flash struck the statue, taking its course directly through the little crowd underneath. Everybody with the exception of three men were thrown from their feet. None, however, suffered further injury than a fevere stunning, with the exception of those named. shower, which rapidly developed into a

THE QUEBEC CYCLONE.

Great Damage and Loss of Life in Many Places. STE. Rose (Quebec.), June 15.—[By the Associated Press.] Further intelligence of Tuesday's great cyclone shows that the destruction and loss of life were not confined to this place, but spread to many places in the vicinity. Advices from Stephriem state that the district was devastated by a terrible storm. In the parish of St. Nazaire the inhabitants suffered most. The house of Anslem Houle was demolished, His wife and children, four in number, were buried in the ruins. A babe was killed in its mother's arms and the woman herself and other children were

woman herself and other children were badly, perhaps fatally, injured.

The house of Alphonse Miquette was wrecked. One child was killed and three others were badly hurt.

At St. Helene lifty-two buildings were wrecked and fifteen persons wounded, some seriously. Great damage is also reported from Actonville, Varennes and other places in the vicinity.

THE JURY DISAGREED.

The Result of the Billings Trial Yesterday.

The Vote Stood 10 to 2 in Favor of Conviction.

A Disgraceful State of Affairs Shown to Exist.

visited "Mother" Brown's Place— The Officers Will Keep

The trial of the case against T. B. Billings, charged with maintaining a disorderly house known as "Mother Brown's place," on the Mission road, just outside the city limits, occupied the attention of Justice Stanton and a jury in the Township Court all day yes

The somewhat limited accommoda tions of the little courtroom in the Jones Block were taxed to their utmost by the large crowd of curious specta-tors, who assembled to watch the proceedings, the interest manifested in the case being such that many who were unable to squeeze into the room stood outside the doors and windows in the

outside the doors and windows in the hall in order to catch a glimpse of the parties most interested, over the head of their luckier fellows inside.

The jurors who had been selected on Wednesday afternoon to try the case were as follows: J. F. Adams, R. G. Beadon, W. S. Clement, E. T. Craig, F. Harber, E. M. Morrison, E. H. Nell, M. Norton, W. W. Sheldon, L. G. Sarnow, J. S. Stateler and J. W. White.

At 10:80 o'clock yesterday morning the case was commenced in earnest by

the case was commenced in earnest by the calling of Maurice Hill, a seventeen-year-old youth, to the stand for the prosecution. He testified to the effect that about 7 o'clock on the evening of May 23 last he met two girls named May McCroy and Edna Percival on the street, and that soon afterward they saw Billy McDermott, a hack-driver, when the girls asked him to take them for a drive. He agreed to do so, and according to the arrangement then made, the girls walked up to the corner of Main and Sixth streets, where the the case was commenced in earnest by of Main and Sixth streets, where the witness and McDermott met them at 8 o'clock with a two-seated carriage. After driving around town for a while, McDermott took them out to "Mother Brown's place," where they arrived at about 9:80 o'clock. The defendant about 9:80 o'clock. The defendant Billings was reading a paper when they alighted, but he at once laid it aside and ushered the quartette into the parlor. After drinking soda water furnished by Billings, the witness played the banjo, while Edna Percival accompanied him on the piano. They then drank wine from a bottle which one of the girls carried into the house from the carriage, Billings furnishing the glasses, however.

The witness was then asked about

.The witness was then asked about certain statements he had made to Dis trict Attorney McLachlan in the lat-ter's office, which differed materially from that made upon the stand, and he replied that some one told him that he ought not to have told the District Attorney what he did. When pressed as to who told him that Hill replied that 'it was a family affair." Upon being further pressed the witness said he did not know whether he told the District Attorney that he saw the McCroy girl in bed with McDermott or not, but

if he did say so it was true.

Upon cross-examination Hill said that the suggestion to ply the girls with liquor on the road out came from McDermott, who purchased beer and wine on San Fernando street, but did not touch it rernando street, but did not touch it himself. The beer was thrown away on the trip out to "Mother Brown's." The witness was asked about his tes-timony given before Judge Smith on the occasion of the committal of the Percival occasion of the committal of the Percival
girl to the reform school, but said he
could not remember, and was excused.
Billy McDermott, a typical "tough,"
then took the stand, and testified up the
effect that after the girls had asked him
to take them for a drive he took them
and Hill out to "Mother Brown's."

While there they drank nothing but soda.

At the close of McDermott's testimony a recess was declared until 1:80 o'clock for lunch.

AFTERNOON SESSION At 1:80 o'clock, when the hearing was resumed, Justice Stanton's little courtroom was again packed to its full copacity, many being unable to gain admittance. The crowd itself was a study, all grades of the masculine per-suasion being represented, from the callow, cigarette-smoking to 1gh not yet out of his teens to the gray-haired man of 50 to 60 years, all drawn by morbid

The first witness was May McCroy, a pretty, innocent-looking girl, aged 15 years. She briefly detailed the circumstances of her drive to the notorious resort; told of the purchase of the wine and beer on the way out by McDermott, and told what transpired at the house. The party entered the parlor, where they had drinks, and the Percival girl played on the piano and sang. McDermott then asked her to go up stairs, and she did so. She said they entered a room where there was a bed, and detailed what took place. The girl did not try to keep back anything, but told her story in a straightforward manner that carried conviction with it. The District Attorney did not resort; told of the purchase of the wine with it. The District Attorney did not push the questions as to the acts committed, out of consideration for the witness, merely going far enough to show that enough had been done to make out the case.

show that enough had been done to make out the case.

Edna Percival followed, corroborating the previous witness on all the main points. The Percival girl, who is also above the average in personal appearance as well as intelligence, is now an inmate of the Whittier reform school.

At this point the people rested, and Billings took the stand in his own defense. Headmitted that the party was at his place, as charged, but denied that he had furnished them with liquor. He stated that he sold them soda water, but was positive that he dil not give them either wine or beer. He claimed that he kept a regular hotel, requiring his guests to register, but in this case they had not done so. He denied that he had rented them a room for immoral purposes, or for any other purpose, claiming that they had merely had the use of his parlors. He said he saw McDermott and the McCroy girl coming down the steps, and had asked them where they had been. Billings denied that there was a bed in the parlor of that there was a bed in the parlor of the solution of th

his house, but could not explain how McDermott had got into another room without his knowledge or consent. Billings was very guarded in his testimony, for the reason that there is another charge against him for selling liquor without a license, and only answered such questions as were put to him in the briefest possible manner.

This was the only witness for the defense, and Mr. Ling, Billings's attorney, offered to submit the case without argument. To this, however, the District Attorney would not agree, and Mr. Diehl briefly addressed the jury, reviewing the evidence.

Mr. Ling followed, but was very briet in his remarks, saying that the people had failed to make out a case, had failed to prove the charge, in fact, that the whole thing was a mere shadow, and that the defendant should be discharged.

District Attorney McEachlan closed

be discharged.
District Attorney McLachlan closed for the people in an eloquent address of half an hour. He pointed out the gravity of the offense, and claimed that gravity of the offense, and claimed that the people had made out a case beyond any reasonable doubt. Mr. McLachlan scored McDermott in unmeasured terms, and incidentally paid his respects to Billings in a manner that made that individual squirm and brought his attorney to his feet to protect him. The District Attorney pointed out the danger of allowing places where mere children may be taken by men of, maturer years and debauched, no questions being asked, and appealed to the jury to render a verdict that would but a quietus on all such dens of iniquity.

The District Attorney was frequently interrupted by counsel for the defense during his speech, who sought to break the force of the telling argument by contradictions and side remarks. This sort of thing continued for some time,

contradictions and side remarks. This sort of thing continued for some time, when a sharp rebuike from Justice Stanton, who said he would fine him for contempt if he persisted, induced Mr. Ling to keep his seat and the argument was concluded.

The case was given to the jury at 8:80 o'clock, and they retired to deliberate. It was generally agreed that if an agreement was not reached in ten or fifteen minutes the result would be a hung jury, and such it proved to be. a hung jury, and such it proved to be.

After being out six hours they were discharged. The jury stood ten for conviction and two for acquittal.

Although the result was a disappointment, the officers do not propose to give up the fight and another effort will be made to secure justice.

RAILROAD AFFAIRS.

The Santa Fe's Proposed Cut Rate Still Holds Off.

rhaps it Will Not Go Into Effect at All -Cheap Travel Promised to Washington-General Railroad Notes.

Though a great many people in Cali-fornia are anxious to know whether the Santa Fé has really put into effect the low second-class rate from Missouri River points to this State, no one out here is able to definitely say. The passenger officials of the company at this end of the road do not know whether the rate went into effect or not, though they are anxious that it should, if only for a short time. According to rules and precedents the company has ten days' time following the 15th, the date set by the ninety days' notice for the rate to go into effect, during which period the matter can remain open. In-formation from Chicago is to the effect that the reduction will be held off longer to allow competitors more opportunity to avert the threatened cut by signing the agreement to abolish commissions in excess of the authorized amount for such traffic. Southern Pacific officials are trying hard to induce the Santa Fé to maintain the present rate and will probably comply with the latter's demands as a last resort. From present appearances the promised low rate will not go into effect tall.

The Examiner says that there has been a noticeable decrease this season in the shipments of green fruit from California to Eastern points, a fact which is accounted for by the cold weather affecting the fruit crops unfavorably. Prices of green fruit have accordingly advanced in Eastern cities. In this paper vesterday it was stated

that Ticket Broker Duffin had been re-fused permission by the American Ticket Brokers' Association to open an office in San Francisco. Mr. Duffin says that it is a mistake, as his application is now before the Executive Committee and has not been finally acted upon. and has not been finally acted upon.

The San Francisco Call says: "The Southern Pacific Company appears to be working hard to make Santa Monica a favored port in its own interest, and is managing Congress artfully to achieve its purpose. This, of course, is not in politics. The company is out of them. But the people of Los Angeles do not believe so, and they are pulling together strenuously to make a good port out of San Prdro, and their representations to Congress on what should be done ought to tell. As against a monopoly the

to tell. As against a monopoly the voice of the people has an honest sound for just purposes." The roads East of the Missouri are already making preparations for the annual convention of the Grand Army of the Republic, which is to be held at Washington, D. C., in September. It has been agreed among them to make a rate of \$26.50 from Council Bluffs, Kansas City and other river points to the encampment and return. The Transcontinental Association has act passed on the matter yet, and as to what reduction will be made by the Southern Pacific and other-Western lines nothing definite has been decided upon. It is thought, however, that the round trip from California and Pacific Coast points will be about \$40.

The Merced Star has the following:

Mr. Kennedy, one of the engineers who was here with Ertz and Bogue, making the survey of the California Midland, is, it seems, the chief engineer of the so-called Salt Lake road. It would not be called Salt Lake road. It would not be a strange thing were it to develop that the California Midland and the Salt Lake road are one. Indeed it is more than probable that they are. The people who are at the head of the Salt Lake road project are not likely to build 1000 miles across the desert when they can make a connection with the Atchison and Topeka at Mejave by building 400 miles through the San Joaquin Valley, and every mile of it through fertile country.

NEW YORK. June 16.—The stock market today was more quiet than for some time, though great efforts were made to get prices down, succeeding in the case of Distillers, which was driven down nearly 5 per cent., inding support around 47. The close was quiet and weak at near the lowest prices of the day.

Government bonds were dull, but firm.

San Francisco, June 16.—[Special to The Times.] The fruit market was active at lower prices for almost all varieties. Strawberries and raspberries, although in in light receipt, were weak and lower in quotations. Some fine blackberries are offered, but as yet meet with little favor. Cherries are in large over-supply and canners are buying liberally at low figures. Apricots are weak and lower in tendency, as receipts are greater than the demand. Peaches are plentiful, but the quality makes them sell slowly. Citrus froits of all kinds are neglected.

The vegetable market was active for

almost all varieties. Prices were lower today, but the volume of business made up
for the depreciation in values.
The market for dary produce demonstrated very little chauge from yesterday.

THE MEEK FAMILY.

They are "Catching On" in San Diego—A Pathetic Appeal. The San Diegan of Wednesday has the following about the notorious Meek family, well-known to the police of Los

Angeles and other cities as professional dead beats: Angeles and other cities as professional dead beats:

In Justice Sloane's court this morning the case of J. R. Meek, charged with trying to defraud the Commercial Hotel out of a board bill, was called. Meek, or Roberts, as the man signed himself on the register, has been in jail since last week in default of \$25 bonds. He appeared in the courtroom with rather a crestfallen look upon his face and took his seat beside his wife and two children. Meek wears a full beard of tawny hue and has a heavy crop of hair of the same color. His wife is much more intelligent looking, although poorly dressed. The children, two little boys, are well dressed and bright looking little fellows.

The first winers called was Mrs. M. J.

dressed. The children, two little boys, are well dressed and bright looking little fellows.

The first witness called was Mrs. M. J. Birdsa'l, proprietor of the hotel. She testified that Meek had arrived at the hotel several days since and registered as J. Roberts. That he had a small vallee, but no other bargage; that after they had remained a few days they left without so much as saying "thank you." The prints attorney. Meek was next called to the witness stand. He was represented by Attorney. Meek was next called to the witness stand. He was represented by Attorney. Meek was next called to the witness stand. He was represented by Attorney. Meek was next called to the witness stand. He was represented by Attorney. Meek testified that his full name was feremain Roberts Meek, and that he came from Kansas with his wife and two children. He expected when he arrived in San Diego to meet a Mr. Johnson. who, Meek not having any funds, he expected to get money from Johnson could not be found, and Meek went out and got a job at the San Diego to meet a Mr. Johnson. Birdsail.

Miss. Meek testified that when they arrived in San Diego the only money which they had was 38 belonging to the little boy. They had come here for Mr. Meek's health.

He expected when he arrived in San Diego to meeta Mr. Johnson, who, Meek not having any funds, he expected to get money from Johnson could not be found, and Meek went out and got a job at the San Diego Lumber company's yard. He worked two days and a half and got 85, but that was not enough to pay Mrs. Birdsall.

Mrs. Meek testified that when they arrived in San Diego the only money which they had was \$8 belonging to the little boy. They had come here for Mr. Meek's health, and had not skipped out from the Commercial with the intent to defraud her, but to look for a house to rent.

After brief argument by the attorneys. Judge Sloane dismissed Meek. The family appeared before the Board of Supervisors and asked for relief. The matter will be considered this afternoon.

Officer Maguire had an exciting chase down Hill street yesterday afternoon. A wild-eyed mustang attached to an express vagon, got it into his head that he wanted to create an excitement, so he started down Hill street from Third as fast as he could go. The rule. he started down Hill street from Thind as fast as he could go. The ruby-whiskered detective happened to be near by mounted on his famens "Nel" and he gave chase. He overtook the express mustang at Sixth street, and managed to get a rope around his neck in true cowboy style, but he did not bring the animal tog standstill until they reached Tenth street. There came near being several smash-ups on the route, but "Mac" steered the runaway clear of the several dozen teams that happened to be on the street at the time.

Party Reforms Necessary.

While the Republican party will find

a plenty to do in fighting the common enemy and vindicating its principles

during the present campaign, it should

also devote a share of its attention to

accomplishing two pronounced reforms

in its own management. Efforts ex-

pended in this direction will not amount

to a diversion from the main issue-

will not weaken the fight in any respect,

but, on the contrary, will strengthen it, by showing the people that the party

is disposed to remedy its own defects

and continue constantly worthy of pub-

The first of these desirable reforms

we have already referred to. It is to

bar out from party management the

men who hold office under the Government. The Republican party, while it

holds the reins of power, can inaugu-

rate with the best of grace this move-

ment which looks to the carrying out of

civil service reform in letter and in

spirit. A measure so wholesome, so

conducive to the perpetuity of repub-

lican institutions. would commend itsel

and the party adopting it to the good

opinion of the thinking and patriotic

people of the Nation. If the Republican

party adopts it, the Democratic party

vill be compelled to follow suit or giv

up the hope of ever returning to power.

If the Republican party, while in power

voluntarily surrenders this much of the

advantage of machine politics, the

Democratic party, out of power,

would not have a leg to stand on until

it had pladed itself on an equally ad-

The other reform consists of a read-

justment of representation in national

conventions. The present system al-

lows to each State twice as many delegates as it has representatives in Con-

gress. This ignores entirely the polit-

cal complexion of the State, and gives

an undue influence to minorities which

are unable to contribute to the success

According to figures compiled by terstate Commerce Commission, the number of railway employes killed by accident last year was 3451 and the number injured was 22,396. This meant one death for every 30G and one injured for every third railroad man in the country. So large a rate of death and injury as this certainly calls for legislation requiring the railroad companies to equip their cars with automatic couplers and to employ other improved and safer appliances on their trains. The Republican party was abundantly justified in making a demand for better protection of railroad employés a plank in its platform.

LETTERS TO THE TIMES. Politics and the Public Schools.

Los Angeles, June 16, 1892....[To the Editor of The Times.] An article appeared in your paper of yesterday morning entitled "Keep Politics out of the Schools," in which you intimate sweeping changes are to be made, and allege "there is something more than a suspicion out that it is in the treatment of specifical politics."

nore than a suspicion out that it is in the interests of practical politics."

I beg to say for myself, and I think for every other member of the Board of Edu on, that you were never more mistaker

in your life.

That changes will be made in the school
departments for the coming year is quite
probable, and for good cause. One of the
mildest of these is the lack of discipline and deportment in the larger scholars of both sexes, and one of the most natural remedies for faults, of this character is to place in for faults, or this character is to place in some of the larger schools teachers, either men or women, who will enforce discipline not only in the school, but in schoolground and street, where its effect will be seen and felt, so that the pupils of our schools will not be adversely criticized in comparison with other schools of surrounding towns of s importance than Los Angeles. Ther , you do the board an injustice who you charge that contemplated changes are to be made in the interest of "practical

politics."

And I quite agree with you in the statement that "the man or party who attempts to introduce politics in the public schools of Los Angeles will be snowed under," and I will help to furnish the snow.

Something More Than Coincidences
[Chicago Daily Tribune.]
The fearful storm which swept Welington, Kan., with the besom of destruction last Friday night was presented seven days in advance. May 20 W. T. Foster of St. Joseph, Mo., wrote as follows to the Los Angeles Times, which published it in its issue of May 22:

May 22:

A severe storm will reach the Pacific Coast about the 25th, cross the Western mountains by the close of the 26th, the great central valleys from the 27th to 29th and the Eastern States about the 30th.

This is sufficiently definite and precise to meet any objection except the one that there is merely a coincidence of lucky guess with fact. If it be simply a coincidence it is a remarkable one, and as such is well worth noting, all and as such is well worth noting, all the more so as a curiosity if other predictions by the gentleman should fail to be verified. A few more of this kind of successes would constitute pretty strong proof that he is able to tell in advance the kind of weather most likely to prevail over a given area, if not always to predict with could if not always to predict with equal closeness the arrival of storms. Even this, however, would not of itself establish a claim that all this could be formulated into rules capable of being applied by others with as satisfactory results as are obtained by Mr. Foster.

FOSTER'S LOCAL FORECASTS. storm waves will reach this me ridian, and the other weather changes noted will occur at and within 100 miles of Los Angeles within twenty-four hours before or after sunset of the dates given below:

June 21—Fair and cool.
June 22—Moderating.

The Closing Exercises at Belmont Hall ge Attendance of Friends of the Pupils—Musical and Literary Entertainment.

The chapel of Belmont Hall was crowded last evening on the occasion of the commencement exercises of that institution. The stage at the front of the large hall was framed in fan palm leaves, arching the alcove. Crimson hollyhocks rising on pale green stalk against the white wall made a picturesque background for the pretty young cises.

The first number was, a piano duet by Miss Mabel Ryland and Miss Conger who played one of Mozart's compositions with skill and finish.

ST. HILDA'S HALL Closing School Exercises Last Evening

The closing exercises of St. Hilda's Hall, the young lady's school of the Episcopalian Church, situated at Glendale, took place last evening. A special

train on the Terminal road conveyed a large party of visitors out from the city, who found themselves amply rewarded for the slight exertion of the trip by the entertainment which was offered

The work of decorating required the assistance of many kands and by night the halls and schoolrooms, the chapel and the great parlors were adorned with ivy, palms, roses, popples and lilies. In the large room where the

attenuance was much larger than was expected.

The programme was opened with a prayer by 'Dr. T. W. Haskins, after which the 'Magnificat'' was rendered by the whole school, the audience rising to its feet. The Gregorian Chant was sung in the old English style with Miss Boynton, the vocal teacher of St. Hilda's, as precentor. A plane duet followed by Miss Fanny

Godby and Mrs. Russell, her instructor.

The next number on the programme was an essay, "A Saxon Princesa," by Miss Josephine Haskins, daughter of the Rev. Dr. T. W. Haskins of Los Angeles. It was a well-written produc tion, delivered in a modest and un-

affected manner. Next came a hunting song of Men-delssohn, rendered on the plant by Miss Jacueline Oliver, the daughter of Col.

W. S. Oliver of Ensenada. A vocal solo, "O, Mio Fernando," from La Favorita of Donizetti, by Miss Fanny Godby was warmly applauded Fanny Godby was warmly applauded by the audience and the young lady was compelled to give an encore. A recitation followed by Miss Maude

M. Wright, "How He Saved St. Michaels." Miss Wright gave this selection with spirit and intelligence. The chorus "The Hawthornes" of Franz Abt, sung by a class of fifteen young ladies' picked voices from the whole school, concluded part 1 of the pro-

gramme.

After a brief recess the programme continued with a beautiful duet by Fannie Godby and Miss Bornton, the "Vieni Meco" of Campana.

Next came the essay "Two Studies From History," by Miss Maude M. Wright. This was a very bright piece of work, for which the young lady was entitled to no little credit.

The "Sonata Patholique" of Beethoven, by Miss Godby, was next rendered with excellent taste and expression.

It is presented to the young lady who makes the best record for scholarship and conduct. The race had, by general consent, narrowed down to Miss Godby and Miss Wright, and no one, not even the teacher, could decide which was the more worthy. In this emergency the good bishop, came to their relief, and provided, a second medal exactly like the first, so that both the young ladies might return home properly rewarded for their excellent work during the year. When the announcement was made by Rev. George F. Bugbee, rector of St. Paul's, who presented the medals, there was vociferous applause medals, there was vociferous applaus on the part of the audience, and tear tears of joy came to the eyes of both youn ladies.

The ceremonies concluded with the singing of the "Good Night" of Franz Abt by the vocal class, which was done with genuine feeling, by the pupils, who saw their happy year at school thus brought to a close. The whole affair passed off pleasantly and much credit is due Miss Darling, the principal, and Miss Metcalf, her first assistant, and the able corps of teachers for its success. The young ladies who took part in the programme leave for home today.

AMATEUR THEATRICALS.

The Qui-vive Club, an East Side amateur dramatic organization, will give its third public entertainment this evening at Campbell's Hall, corner of Truman street and Downey avenue. The chief feature of the programme is to be a minstrel perfomance by the young gentlemen of the club, while a few preliminary numbers by the ladies promise to be quite as entertaining. The last dress rehearsal was held last night at the hall, and it was then quite evident that the club would surpass even its former successful record, making to-night's affair the most brilliant event in amateur theatricals ever witnessed on the East Side.

Webb immediately decided to repay the money, and at his wife's solicitation he concluded to allow her to visit Los Angeles and square the account with his mother in-law. The following morning Webb gave his wife \$800, with instructions to turn it over to her mother. Last Tuesday morning, after bidding her busband an affectionate good-by, Mrs. Webb boarded the train bound for Los Angetes. Since then her whereabouts has been wrapped in deepest mystery. Not a word has been received from the missing woman, and it is even said that she did not arrive in Los Angeles. The local police, however, believe that from the missing woman, and it is even said that she did not arrive in Los Angeles. The local police, however, believe that Mrs. Webb visited Los angeles and was met by a young man whose attention to her caused a sensation some time ago. Webb was apprised of his wife's apparent affection for the stranger and he determined on revenge. Meeting the object of his wrath on one of the principal streets of Los Angeles he belabored him over the head with a revolver. The victim's head was terribly lacerated and it was several months before he could leave his room.

After the assault Mrs. Webb left the city and went to live with a Mrs. Evans, who resides at No. 428 O'Farrell street, San Francisco. She remained there for some time, but a reconciliation was finally effected and Mrs. Webb rejoined her husband at Los Angeles.

Thinking that his wife had returned to Mrs. Evans, Webb several days ago made inquiries and learned that the former lady had removed from O'Farrell street. Her present whereabouts is not known. Chief Crowley has been notified, and every effort will be made to locate the missing woman.

In reply to the arguments of the deputation in favor of es-tablishing a legal eight-hour day, Gladstone said that the home rule question blocked the way of any consideration of the matter under discussion. The eight hour question, he declared, was not one for him to deal with, but for men who would come after him. He was not even prepared to admit that the eight-hour ur principle is in Gladstone added any wise correct. Gladstone added that he dedicated the remainder of his public life to one question, that of

s, relative to the adjustment of the ifferences between the union and the Tribune, which has been pronounced by Whitelaw Reid to be accurate. The statement relates in detail the various steps in the negotiations for a settlement, which were begun nearly sectioners, which were begin hearly two years ago, while Reid was Min-ister to France. The correspondence between Reid and the union shows that

the latter had accepted all that was practically applicable to the Tribune office. He held that the Tribune was a office. He held that the Tribune was a linotype office, while the organization was one of composition. The trade was absolutely different and knowledge of composition was not necessary; also that he was paying the highest wages and would gladly cooperate with the union in maintaining or even advancing. Finally when Reid returned to this

country it was proposed by the union that the same plan be adopted which had been successfully employed in settlements with the Indianapolis Journal and other newspapers, that of employing as foreman of the Tribune office a member of the union in good standing This proposition was promptly accepted. Mr. Reid chose William Brennan, late president of the union, thereby proving his perfect faith in the organization. Brennan is now foreman of the Tribune composing room. This the union as to Mr. Reid, a fact demonstrated by the appearance of a committee representing the union and appointed for that purpose at the recent Republican National Convention. The action thus taken was voluntary.

At a few minutes past 8 o'clock yesterday morning Mrs. Nana Calvert, a woman about town who Las figured in the courts more or less during the past eighteen months, took an over-dose of morphine in her room in the Bumiller block, next to the Phillips block, on North spring street, with fatal results.

night, and was seen to go to her room at 4 o'clock yesterday morning. At 5 o'clock she was noticed in her room by the landlady writing letters. At about 7 o'clock she sent a messenger boy out with the following note to a druggist.

Please send me a bottle of morphine.

Just as she started up stairs Dr. Jauch entered the building and passed the woman on his way up stairs to see a patient. Mrs. Calvert asked him if he was not a doctor, and when he replied that he was, she asked him to come to room 28 to see her as soon as he got through with his patient.

The doctor had been in the room but a few moments when Mrs. Calvert knocked at the door and asked him to come to her room at once as she was in a great hurry to see him. He went to her room a few minutes later and found her on her bed. She said she was very sick, and when he asked her a few questions she pointed to a bottle that had contained morphine and coolly stated that she had taken the contents a few minutes before. few minutes before.

At first the doctor did not believe her, but symptoms of morphine poisoning soon appeared and he realized that he had a tough case before him. He hurried out for assistance and a stomach pump, and in a few minutes four doctors were at work on the poor creature, but all that they could do did not save her, for she died at 1:30 o'clock and the body was removed to Orr & Sutch's un-dertaking rooms near by, where an in-quest was held last evening by Coroner Weldon.

THE ROSEDALE SUICIDE.

What was Known About the Poor Woman in San Francisco. The San Francisco Chronicle of Tuesday has the following about the unfortunate woman found dead on a child's chief. grave at Rosedale Cemetery last week:

During the early part of last week a woman committed suicide in Rosedale Cemetery, Los Angeles. The identity of the woman was at first unknown and the circumstances surrounding the suicide were mysterious. The only clew to her identity was obtained from F. Dubols, a Los Angeles expressman, whose stand is at the corner of Main and Fourth streets, in that city. He said that two weeks ago a woman dressed in black walked up to him and asked him to convey her trunk from a Broadway lodging house to the Hotel Frémont, on Fifth street. grave at Rosedale Cemetery last week:

ing nouse to the Hotel Frémont, on Fifth street.

Last Monday week he went to his stand and found pinned to his order slate a letter from this same woman, asking him to remove a valise belonging to her from 511½ South Spring street and to pay 25 cents for her night's lodging. She wrote she would then owe him \$1.50, having borrowed other small sums from him, and added it would be the last favor she would ask, at the same time telling him to keep the satchel and trunk subject to her order. She concluded with the words: "Many thanks and God bless you for your kindly intervention." The signature was merely "Mrs. L."

intervention." The signature was merely

"Mrs. L."

Mr. Dubois positively recognized the dead woman, whose trunk was in his possession. At noon the day before vesterday he received a letter from Mrs. E. L. Howard of No. 818 Bush street. San Francisco, stating that she had received a communication from a lady friend in Los Angeles, who wrote that she owed \$2.50 on her trunk and valles, and that her letter appeared to have been penned while in a very despondant mood.

The writer wanted to know if the person who had committed suicide was the woman city.

whose trunk Dubois held. She also wrote to Coroner Weldon for a description of the woman. After sending the description an answer was received at Los Angeles from San Francisco, stating that the name of the dead woman was Mrs. Carrie Love of San Francisco. The reason of her death was doubtless despondency and lack of employment.

THE CRANDALL CASE.

Mrs. Wilson Denies that She is the Myste-rious Mrs. Rowland.

There have been no further develop-ments in the Crandall case in this city, and there is but little more to come out until the trial of the swindler com out until the trial of the swindler com-mences in Buffalo N.Y. The mystery surrounding Mrs. Rowland has not yet been cleared up. It is very generally believed that the woman with whom Crandall lived in this city as his wife under the name of B. B. Wilson, furnished the information that led to his capture, but this is strenuously denied. Chief Glass still refuses to give any information on the subject. He insists that he does not know Mrs. Rowland, which is probably correct for the reason that no such person exists, the hame having been assumed by some one for the purpose for which it was used. The chief, declines to talk on the matter of the bond delivered to him by Detective Diehl, refusing to say whether or not he even received it, or, in fact, to give any information on the subject whatsoever. It is more than probable that there will yet be a lawsuit over the reward before it is paid, and in this case the inside history of the whole transaction will probably come out. The woman known as Mrs. B. B. Wilson is living out on the Mission road. She positively denies that she gave the information that led to Crandall's capture, or that she eyen knows who Mrs. Rowland is. She says that she was married by contract to Crandall, under the name of B. B. Wilson, at San Diego, August 11, 1888, and has which is probably correct for the rea-

dall, under the name of B. B. Wilson, at San Diego. August 11, 1888, and has the document in her possession. It is a very brief contract, drawn up by Crandall himself, and signed by two witnesses, but has never been acknowledged before a notary. She says that she never knew that Crandall had another wife until after his arrest, when he confessed to her in the city prison that he was Crandall and admitted that he had left his wife in New York. Mrs. Wilson is not at all backward about talking, but her utterances now do not "consist" with certain admissions made by her to neighbors when she was livby her to neighbors when she was liv-ing on Lincoln street. It is known that the home life of the copple was not at all times a happy one, as Crandall was a confirmed morphine fiend and caused considerable trouble.

Detectives are now working on the case, but whether they are in the pay of the Eastern insurance companies or not is unknown.

Something of a Sensation in Legal Circles.

An Effort to Be Made to Secure A. Montano's Disbarment.

Unprofessional Conduct Toward an Attorney in a Damage Suit.

Proceedings in the Temple Street Grade Case-Youthful Highwaymen Com-Emitted to Whittler-General Court Notes,

A sensation was caused in legal circles yesterday by the rumor that an effort was being made to disbar Attorney A. A. Montaño, who figured in the Lauterio cases some months ago, and who was refused admittance to the United States Court by Judge Ross, on account of his having been guilty of certain unprofes-sional conduct in his connection with Pacific Company. A Times reporter, upon investigating the matter, found that the report was founded upon fact, an affidavit having been filed by G. J. Denis, Esq., counsel for plainting in the case of Pierre Andre, vs the Southern Pacific Company, an action for damages pending in Department Five, in that Court vesterday morning, upon which Judge Shaw issued an order vacating that made on Tuesday, a week ago, substituting Montaño as attorney for the plaintiff, and citing Montaño to appear before him and show cause why he should not be disbarred, on Monday the 27th inst. case of Pierre Andre, vs the Southern

The affidavit referred to, which was read to the Court, is as follows:
George J Denis, being duly sworn, deposes and says: That he is now and has been ever since the year 1880 an attorney and counsellor at law; that in the year 1885 he was duly admitted to practice his profession before all the courts of the State of Chiffornia, and ever since has been and is now engaged in such practice; that on or about the 3d day of September, 1891. One, Pierre André, employed this affant to bring suit against the Southern Pacific Company, a corporation, for damages for personal injuries suffered by him, the said André on or about the 14th day of August, 1891 in the said county and State; that on or about the 28th of October, 1891, affant filed a duly verified complaint praying for damages on behalf of said André against said corporation, and thereafter said cause was duly and regularly set for trial before this Court; that thereafter this affiant entered into a verbal agreement with A. B. Metchking the attenuar for wald defended. The affidavit referred to, which was was duly and regularly set for trial before this Court; that thereafter this affiant entered into a verbal agreement with A. B. A QUESTION OF PASTURAGE. The case of the Providencia Land

Water and Development Company vs. Charles Gassen, an action to recover \$800 rent for pasturage, came up for trial before Judge Van Dyke, in Department Four, yesterday morning, and at ned for argument until this morning at 9 o'clock.

The plaintiff alleged that on March 1, 1891, it rented 1000 acres of pastur-

age in the Providencia Park tract until November 1 last for \$300, but that the defendant had not paid the same, which, together with \$5 interest thereon, was

still due.
The defendant, on the other hand, claimed that he rented 1200 acres for \$300, but that plaintiff only allowed him to have possession of 600 acres of the land rented, consequently he offered to pay \$150 only, being one-half the amount agreed upon, which it refused to accept. to accept.

SUIT TO RECOVER PERSONAL PROPERTY.

Tae trial of the case of J. O. Blakely to J.K. Wood, are action to recover certain personal property alleged to have been leased to defendant, was consided in Department. Three yesterday afternoon, the jury returning a verdict for the defendant.

The whole of the morning session was consumed by counsel in arguing the case, which was finally submitted to the jury at 12:10 o'clock. Some doubt appeared to exist in the minds of the jurors as to the number required to reach a verdict, for at 1 o'clock p.m. they came into court for instructions on that point before going to lunch. Finally, at 4 o'clock, a verdict was dered in favor of defendant for the return of the property, except the agri-cultural implements or the value thereof, \$2 75.75 \no damages, how-ever, being assessed.

In Department One Jesterday morning Judge Smith by cousent extended the time set for Ah Wai to plead to the charge of perjury against him un til Saturday morning, and allowed Ed Whitten until Monday next in which to plead to the charge of robbery against him.

gart vs. J. D. Bosch, an action over a gart vs. J. D. In Southern California.

6520 ACRES

Offered by the Southern California Land Company, 230 North Main Street, adjoining First National Bank.

1630 Shares at \$100 Each, In Installments of \$5.00 per Month Without Interest.

Not a Land Distribution, but An Investment of Money

Each share will earn 5 per cent, per month on each \$100 for five years from the date of the first subscription and has the best real estate security. ** Books of subscription to be opened Saturday, June 18.

Sixteen hundred and thirty shares at \$100 each will buy the Fowler Ranch of 6500 acres with the present improvements and the prospective improvements to be made by the present owners at a cost to them of \$30,000. This splendid property is situated on the border line of Tulare and Kern counties, four miles west of the Valley Road of the Southern Paclic Railroad, and four miles north of the branch line to the oil wells, and twelve miles west of the present line to San Francisco. A survey of the Santa Fe line has been made through the western portion of this tract.

The best fruit and vine land in the State. In the heart of the artesian belt. To be subdivided into 49-acre tracts, including a town site, with artesian wells and an irrigating canal of twelve miles, proad avenues with trees, and water for conveyance to each subdivision. These improvements to be paid for by the present owners, and are included in the contract of saic to this company. For these improvements \$25,000 is set aside. Title perfect and undoubted.

We are soliciting subscriptions for shares in an incorporation to be organized for the rpose of buying from the present owners the Fowler Ranch, containing 6500 acres, situ purpose of buying from the present owners the Fowler Hanch, containing 6500 acres, situate on the border line of Tulare and Kern counties, for 25 per acre, with its present improvements and with 850,000 of improvements to be made by the owners and included in the price of 85 per acre, as stated. This is not a land distribution, but an investment of money, with return of money and profits, by dividing the tract into 40 acre subdivis-ons, and after the improvements are made, selling at a luture period at 8100 or more per acre. There will be 1630 shares in the corporation at 8300 each, to be paid for in 35 monthly installments with all interest. Ou the sixth payment the subscribers will incorporate, will elect their ofhers, and the trustee they may appoint will receive a deed for 650 acres, in escrow, clear of all incumbrances, with the certificate of title attached of the Abstract and Title Insurance Company of Los Angeles, to be delivered to the corporation when the purchase money is paid. The 850,000 proposed improvements guaranteed by a deposit in bank of that amount, to be paid out to the contractors on certified vouchers, as they progress with the work.

Description of the Property.

The land is a rich, black loam, and is known as the Fowler Ranch. It was purchased many years ago by the late Senator Tom Fowler of Tulare, when he had the opportunity of obtaining the cream of Tulare and Kern counties. It is in the center of the artesian, fruit and alraifa belt: has upon it now a sample artesian well flowing \$00,000 gallons, and is in the immediate vicinity of the largest flowing wells in the State.

The Present Price and What the Investment Will Pay. The low rate of the purchase, (23 per acre with all the present and the projected im rovements herein recited, made and paid for by the present owners, at a cost of \$30,000 nables us to guarantee at the lowest rate of sale in the future, say \$100 per acre with e years, an interest of 5 per cent, a month on each share of \$100 from the date of sale cription. This is no exaggerated statement, but is borne out by the plain figures subtited, and also accords with the opinion and unbiased judgment of the best experts in outhern and Northern California.

This tract has one section already fenced, a colony house, the present flowing well, large reservoir, etc. The improvements to be made by the present owners will consist of an irrigating canal of 12 mises, six more artesian wells as feeders, survey and division into do acre tracts, survey and laying out of the town of Colonna, broad avenues through the entire property planted with trees, etc., etc.

How Improvements are Guaranteed to Stockholders.

\$30,000 of the purchase money will not be paid over to the present owners but will be set aside for the improvements stated, and deposited daily, in proportion to the subscriptions, in the name of the "Columbia Colony Improvement Fund," to be drawn from bank on certified vouchers given to the contractors as they proceed with the improvements. In regard to the necessity for a town site upon this tract, every one will admit that colony embracing 180 farms will demand and build up a prosperous town. The estimated price of one-quarter acre lots, 850 each, will doubtless be far exceeded as said as are made from this purpose 250 acres will be surveyed and laid out in one-quarter acre lots.

Topography of the Tract.

The whole tract of 6500 acres is level, not a hill upon it; the fall of the land is sufficient for drainage and admirably adapted for the conveyance of water by canal, as there inothing to obstruct its course.

How the 5 per cent. per Month on Each \$100 is to be Earned for the Five Years.

Interest at 5 per cent, per month from commencement of subscription to the end of the five years on 1630 shares...... 480,600 00 P652,000 00

...... \$630,000 00 Sales of 6300 acres at \$100 per acre...... Sales of 880 town lots of one-quarter acre each 44,000 00 This would leave a surplus of \$22,000 after paying the interest of 5 per cent. per month

This surplus would meet all expenses for the full term; salary of superintendent taxes

expenses attending sales and any extra improvements that the trustees might deem

Upon What the Estimate of \$100 per Acre is Founded. This calculation is founded on only one half the results heretofore attained by others in the improvement and sale of large tracts of land in Tulare, Kern and other counties. The grand water system of Haggin, Tevis & Carr is at the head. Messrs. Page and Morton's Artesian Fruit best Colony in Tulare is also a fair example. They paid 86 per acre for their tract nine years ago; and today it is selling for from \$100 to \$150 per acre. General Turnbull's tract, a short distance north from the Fowler Ranch, cost \$15 per acre five years ago, and now, with the introduction of water, etc., it is selling at \$100 per acre and upward. We could point to a number of other enterprises in Los Augeles, Kern, Tulare and Fresno counties from which the projectors are realying a still larger reward for their perseverence, energy and ability in handling large tracts.

This prospects, before publication, was submitted to several conservative and prominent citizens of Los Anggles. They all, without an exception, placed the sales of this property at the end of five years at far more than our estimate of \$100 per arc, thus giving each shareholder a larger interest than 5 per cent. per mouth on his investment.

Expert Statement of the Value of the Property.

Messrs. Easton & Eldridge of San Francisco, so well known for twenty years past and at the present time as a prominent and reliable real estate firm, say over their own signature, in stating the value of the Fowler ranch, as follows:

"There is no land in the State with the possibilities of this tract. The soil is a very rich, black alluvial loam, mixed with vegetable moid, in character similar to that on Union and Roberts's Islands in the San Joaquin River, near stockton, and equally capable of producing fifty to seventy-five bushels of grain to the acre.

As fruit and vineyard land it has no superior. Frunes, pears, fruit of every kind and grapes of the linest varieties can be grown. The climate is unequaled. Being ten miles also particularly adapted to the rate the climate is unequaled. Being ten miles south of fulare Lake and ninety electatory it, thas cool and refreshing nights at all seasons, and no intense heat in the summer. The present owners have had such as the ployed on the property at one time, and no case of even ordinary sickness occurred during the whole period.

The Southern California Land Company of Los Angeles now places this tract before the public and strongly recommends it for the investment of large or of small amounts. This company has conducted in the past seven years many large successful and deals in Los Angeles. Its record is without reproach, and its references include the leading citizens of Southern California. Its chemis have numbered hundreds of investors in the Childs tract, Urnston tract. City Center tract, etc. Its dealings have amounted to hundreds of thousands of dollars and it stands today one of the most popular firms in this section of the state.

To be Incorporated.

The certificate holders will meet, after due notice has been given to incorporate under the name of the Columbia Colony, and elect their own president, trustees, and other officers. The corporation will also receive a deed of the property, to be placed is earrow until payment is made, with abstract and insurance of title, and can appoint a superintendent to reside on the land and oversee the improvements as they There will be no assessments on the certificates. The trustees will decide subject to the approval of the stockholders, as to the time for the sale of the subdivisions and the dividends to the stockholders. The incorporation will be a perfect security to investors as it will be governed by the laws of the State of California. Improvements will be commenced by the present owners and continued to completion under thoroughly competent engineer, surveyors and contractors. Certificates will be issued to subscribers and receipts given on each monthly payment. These certificates will be negotiable by indorsement, and will be transferable upon the books of the company.

The Title With Certificate of the Abstract and Title Insurance Company of Los A The title to the property will pass complete as in the manner of our former homestead tracts, it will be given iree and clear from all incumbrances and with the abstract and certificate of the Abstract and tritle insurance Company of Los Angeles. The same care in regard to this and all essential points and guarantees will be exercised by the Southern California Land Company, that has, without an exception, marked all its dealings with the public.

An Interest of Fire per cent per Month Must Arrest Attention.

An investment with perfect security and carning 5 per cent. per month on each \$100 share for a term of five years from the date of the first payment of 30, must afrest the attention of every one. If will also be borne in mind that should the stockholders elect to sell at \$100 an acre within, say two years and a half, half of the time that we here propose, their investment will not them 10 per cent, per month for that period. Increase in the Value of Certificates and Their Sale. Another point well worth consideration for those who may desire to sell their certificates at any time after subscribing, there is a positive assurance, had from former experience in first-class enterprises like this, that on the subscribing being closed the certificate becomes marketable and continues to increase in value so that a fair profit at any time may be had by its sale.

This is not a land distribution, but an investment of money with return of money and interest. Building associations and savings banks are all founded on real estate security and pay from 5 to 8 per cent. per year. Here you have not only the best real estate security your investment also earns 5 per cent. per month, and at the same time you own your own proportion of the land, 4 acres to each share, until it is sold by your own trustees, and then you have your division of profits.

Subscriptions received for this splendid property at the office of this company, 220 North Main street adjoining First National Bank. The payments will be \$0\$ at the time of subscribing and of mouth thereafter, with but interest, until the twenty payments are defined. Interest will be allowed on payments make in advance. Any further information required will be promptly answered by mail or personally at our office. A map of the tract with present and prospective improvements, etc., is ready for inspection.

always considered it—the dearest spot on earth.

"I have been home about a month, but it isn't what it used to be, and I pen these lines to impress upon the people of Pasadena the fact that they live in one of the most beautiful residence towns in this country, and in a clitiate that has no equal. My short stay among your hospitable people spoiled me. Weather vagaries here abouts that I formerly thought nothing of I now detest, because I know there is one section of our land where they don't occur. Winter and summer here the weather is ville at least one-half of the time, and at other times one never knows what to expect. I intend to come to Pasadena to live as soon as I can so arrange matters, and I am doing good missionary work in leading some of my neighbors to pursue the same course. If the Eastern papers did not print so many bitter attacks on California, which are utterly without foundation, and if Easterners could be persuaded to believe half the good things they hear about California, which are true, a tremendous tide of travel would set in in your direction. It is bound to come before long." Instructive audresses ever derivered in Pasadena.

The Polace Patrol.

The Polace Patrol that was presented at the operahouse entertained the good-sized audience present from start to finish. While on the sensational order, the scenes are drawn true to hie. Humor and pathos are happily blended, the stage settings are good, and the climaxes are worked up with truly realistic effect. The various parts were well taken, and the horses that appear in the great fire scene were a whole show in themselves. Altogether the performance was a success and will bear repetition. THE POLICE PATROL.

NOTES AND COMMENT.

The great majority of Pasadenians pay their bills promptly, but there are a few people who strut the streets daily, whose chief aim seems to be to do nothing and "stand off." those to whom they are indebted. Such people carry their heads high, but they are rated low. It is a good thing that they are the exception and not the rule, otherwise the novelty of meeting a debtor whose equanimity is not disturbed in the slightest by your presence would cease to be a novelty.

A runaway oocurred yesterday afternoon which came near resulting in a serious ac-cident. A. Prince, a teamster, has a fine cident. A. Prince, a teamster, has a fine team of young dray horses, which he had hitched to his wagon at a lumber yard on E street, where he was loading some lumber. For some reason the horses started up E street at a lively gait and at Third street cleared the excavation for the street car track at a bound, the wheels of the wagon striking the further car rail and bending it. At the interesection of E and Court streets a lady in a buggy saw the runaway and endeavored to drive hir horse from the street, but it would not respond to her commands, and the team dashed by upon one side, striking the hub of the lady's buggy and breaking the shaft. Had the woman's horse gone in the direction she wished it to, it would have gotten directly in the way of the team, and she scarcely could have escaped serious injury. The runaway team ran upon the sidewalk missing large plate-glass windows by a few inches, and on to Fourth and then F streets, stopping at the planing mill.

A BROKEN SHOULDER.

On Wednesday evening as John Leedom was driving out of town, he in some way fell from his wagon breaking his shoulder biade. About midnight he was brought into town and his wound cared for by Dr. Thomson. While he was at the doctor's office the police found his team and put it up at the livery stable. When it was found Mr. Leedom was put in the wagon and sent to his home in the country.

At the meeting of the city fathers on Wednesday night the ordinance declaring dogs without owners a nuisance and providing for the abatement of the same, was passed and has been posted. The ordinance declares all dogs without the license tag to be nuisances and provides that the City Marshal shall shoot or otherwise dispose of them and the enforcement of the ordinance was demanded. This puts the City Marshal in somewhat of a predicament, as the City Attorney has ruled that dogs brought into the city since the 1st of April are not subject to the tax until next year, as it is levied and the license-granted on the 1st day of April. Therefore he is liable to trouble if he should kill an unilicensed dog, as it may prove to be a recent arrival. As the laws of California recognize dogs as property, heavy damage suits may be brought upon the disappearance of any property, heavy damage suits may be brought upon the disappearance of any canine.

BEATEN OUT ONCE MORE.

The Unlucky Colonels Drop Another Game.

They Started Out Like Winners, but Fell Short, as Usual.

Heavy Hitting of the Angels too

Much for the Oaklands. The Game Exciting Throughout, the Batting of Both Sides and Some

Exceptionally Brilliant Fielding the Features.

Robinson, so-called on account of his two which are always working on a pivot, arrived at the ball park half an hour after the game had begun yesderday af-

ternoon, when his hired men were three runs to the good and playing a stiff game, urged on by the sympathics of nearly every spectator present. But before the elongated Colonel had witnessed ten minutes' play he saw the score tied, and his club was eventually eaten out once more.

This incident is mentioned merely to how that in spite of the fact that the Oakland club is made up of star players they are pursued day after day by one dire calamity or another which snatches victory from them when it is almost in their grasp. If it isn't Col. Robinson it is something almost as bad, until now they have dropped thirty-nine games out of a possible fifty-five. Whenever the Oakland fielders put up a crack game the pitcher falls down, and when the pitcher is holding down the opposing batsman to five or six safe hits the men behind him boot the ball around as though they were naving off an old victory from them when it is almost in

though they were paying off an old grudge with interest compounded.

If the Angels should lose a couple of games through poor playing and Presi-dent Vanderbeck would rush into print with the statement that this and that man were "rotten" players, that this one and that one were throwing games, and that six of them were to be released as soon as he could get men to take their places, there would be little heart their places, there would be little heart left in any of the players when they went into a game. Then if Capt. Glenalvin was so puffed up with his authority and self-importance that he would stand up the players in front of the spectators and humiliate them as though they were schoolboys by reading them a lecture and adding, "Now. don't you talk back to me or it will cost you \$10." his club would lose as many games as the Oaklands are dropping. But that is not the way the Los Angeles But that is not the way the Los Angeles

team is handled. The Colonels started out like winners yesterday. Los Angeles began with an earned run in the first on singles by Wright and Tredway and a sacrifice by

McCauley.

Nothing more was done until the third, when the Oaklands' stick work and stolen bases brought them four runs. Shea and Hutchinson hit for dou-bles, O'Neill, Turner and Wilson singled and Hasamaear juggled Carroll's

grounder.

Los Angeles tied the score in the fourth. Stafford and Newman singled, Hulen sacrificed them with a long fly to Carroll and Roach singled. Wright sent out a two-bagger and scored on a wild pitch after Carroll's error had let

The Colonels had a splendid chance to score in the fifth, but missed it.

After Shea had been retired at first Roach seemed to lose control of the ball entirely for the time being and sent O'Neill, Hutchinson and Catroll on a promenade to first, filling the cushions.
Then the handsome south paw settled down to business and retired the next

In the fifth Hasamaear led off with a In the fifth Hasamaear led off with a single and was sacrificed to third by Glenalvin and Stafford, but died there. In the seventh, after three poor ones had been pitched to McCauley, Manassau yelled at Horner, "Make him hit it, Jack, we'll eat it up!" He had scarcely fluished when the ball from McCauley's bat went clear out beyond the left-field-er's territory, and "Pop" landed safely on third. Hasamaear walked to first on third. Hasamaear walked to first and went to second, while McCauley scored on Turner's error, Glenalvin driving "Gentle Willie" home with a twe-bagger. One more run came in the ninth, after two men had been retired. Glenalvin singled and Stafford lined out

a double. Newman walked to first, fill-ing the bases and Hulen did likewise, crowding Glen in.
Oakland took one in the eighth on singles by Whitehead, Wilson and Shea. The game was exciting, the features being Newman's catching, the batting of both clubs and the fielding of Hassa-maear, Glenalvin, Hulen, Wright, Whitehead and Horner. Following is
